PROFILE

Dynamic Lead UI Engineer with over 12 years of experience in front-end development, specialising in creating high-performance, enterprise-grade web applications. Expertise lies in architecting scalable UI solutions using the React ecosystem, while establishing efficient engineering practices that drive collaboration and innovation. Demonstrated capability in mentoring teams and developing reusable design systems, aligning engineering efforts with strategic business objectives. Committed to delivering user-centric products that enhance operational efficiency and meet diverse client needs.

EMPLOYMENT HISTORY

Mar 2023 — Present	Lead UI Engineer, JP Morgan & Chase CCOR - Design, architect, develop and test high performing user interface using React, React query, React Testing Library, Jest and Cypress, to automate, manage and track Compliance monitoring tasks. - Develop a reusable component library using Yarn workspaces, React, Typescript and Vite to be used across multiple applications developed by wider team.	Glasgow, UK
Nov 2022 — Feb 2024	AVP, Barclays DEVHUB - Develop and maintain a mobile application based on React Native for Android/iOS devices using react-native-paper component library with Jest for unit testing and Maestro for e2e testing. - Develop and maintain a documentation website using React, Typescript, Docusaurus and Vite	Glasgow, UK
Apr 2020 — Oct 2022	Senior Associate, JP Morgan & Chase Asset Service Convergence Design, architect, develop and test high performing user interface using React, Redux, NextJS, an internally developed React based component library, TypeScript, Jest, React Testing Library and Cypress which interacts with REST Micro-services and Web Sockets	Glasgow, UK
Jun 2018 — Mar 2020	Senior Associate, JP Morgan & Chase Software Engineering Efficiency - Lead a team of 4 members and mentor junior team members to get up to speed with the application architecture and design. - Design, architect, develop and test high performing presentation layers using React, Redux, High charts, an internally developed React based UI toolkit, Jest and React testing library which interacts with WebSocket APIs. - Configure Continuous Integration and Continuous Deployment to Cloud Foundry using Git Web hooks and internally developed pattern build for Jenkins.	Glasgow, UK
Mar 2017 — May 2018	Senior Associate, JP Morgan & Chase PHEME - Design, architect, develop and test a full stack spring boot web application using React, Java, Hibernate and Junit that displays compliance data collected from a third-party survey tool. - Configure Continuous Integration and Continuous Deployment to Cloud Foundry using Git Web hooks and Jenkins	Glasgow, UK
Sep 2015 — Feb 2017	Associate, JP Morgan & Chase Workflow Automation Develop and test a full stack spring boot application using AngularJS, Java, Hibernate, Junit and Cucumber that handles margin calls automation and management	Glasgow, UK

Jun 2010 — Sep 2012	Systems Engineer, Infosys Limited	Chennai, India
	Replication monitoring Design and develop a replication monitoring tool using Java, Shell, Perl, HTML5 and CSS3 that provides live feed on replication across multiple servers, also sends notification in case of an error	
Jun 2010 — Jun 2011	Systems Engineer, Infosys Limited	Chennai, India
	Asset management automation Automate digital assets migration from legacy system into a Digital Asset Management tool using C# and ASP.Net	

EDUCATION

Sep 2012 — Sep 2013	Master of Science in Microelectronics System Design, University of Southampton	Southampton, UK
	Graduated with Distinction	
Jun 2006 — Jun 2010	Bachelor of Engineering in Electronics and Communication, Karunya University	Coimbatore, India
	Graduated with Distinction	

SKILLS	ReactJS	Expert	C Sharp (Programming Language)	Skillful
	React Native	Expert		
	HTML5	Expert	Confluence	Experienced
	CSS	Expert	JIRA	Experienced
	JavaScript	Expert	Git	Expert
	TypeScript	Expert	Jenkins	Experienced
	Jest	Expert	Cloud Foundry	Experienced
	Cypress	Expert	Docker	Experienced
	Maestro	Skillful	Kubernetes	Experienced
	Java	Skillful	GitHub	Expert
			Netlify	Skillful

LANGUAGES	English	Highly proficient	Tamil	Native speaker
